Oct 32008 Laura Coker

Ed Sensi would come to my house in Fairfield, CT over a 3-4 month period. We were friends from work and had developed a personal relationship as I was told he that he was a single parent as well. I would not say we dated, but we would go out on short trips with my [REDACTED] and with his son [REDACTED].

One night he came over for dinner which I prepared. I was drinking wine, he drank some as well. Later he asked me if I was feeling better, asking why he said that he had given me 'something' to make me feel better. I do not recall a lot after that other than very short kissing, touching both to me and to [REDACTED] and some oral as well. I do vaguely remember him urging me on to kiss my [REDACTED] I think I did. I sort of recall a camera - I remember a small brown bag and a small brown camera. I do not remember a tripod - there may have been one. Basically the entire night is a total blur and I fully believe I had been drugged. Next day I felt like death.

To the best of my memory this only occurred once. ~~as I can see~~ ~~we rem~~ We did have dinner together a few times after and he would want to film [REDACTED] modeling, but in my mind, which was coming clear and out of his influence. I terminated all personal contact soon after this evening. We continued to work together and obviously stayed in contact, but ~~after~~ if

I met Ed Sensi when he joined Tark as a product manager sometime in 2000. I had started in 1999, having moved to the position from Seattle in Sept 1999. I am a divorced mother, I was divorced when my [REDACTED] was 2 however [REDACTED] father left when [REDACTED] was under a year. Ed ignored me at first as I did him as a lot of other women were fawning over how wonderful and good looking he was. About 6 months or so after he joined the company I think early spring 2001 there was a company picnic and we started talking, mainly about being single parents as he told me he was divorced as well.

He asked if [REDACTED] and I wanted to join he and [REDACTED] to do things like go to the beach, the park etc. and we did a few times. I believe at that time [REDACTED] lived in Florida I was told with his mother. Ed and I started having dinner together at my home in Fairfield. I would cook. We would drink wine and Ed would sing opera. I really like all his attention, he would bring wine, flowers and give me money. Only a 20 or 60 or 80 but always gave me money. I started believing that this could be a real relationship the first for me since my husband left in 1993. I would say I feel in love but I am not sure what that is, I would say more that I felt like I had someone to lean on, someone I could trust to be there and to take care of me and of [REDACTED]. [REDACTED] is my life.

and I had been stressed and working very hard to take care of [REDACTED] property. Ed came across telling me he wanted to buy a house, take care of us.

One evening he came he started talking about sex. Till then, and it had been maybe a month there was nothing no physical contact.

We started drinking wine and he started telling me that in Italy, families play together sexually. For a long while, probably a month I would just change the subject. Ed started buying [REDACTED] presents, a game boy, a bicycle.

Ed started telling me that we could be together as a family as a loving family and that sex with all the members was normal.

that he was teacher. I got wrapped up and I must say just fell under a spell. My life has been all about my [REDACTED] since the day [REDACTED] was born. I do everything for [REDACTED] and Ed convinced me that having this type of relationship was right and normal. I guess I fell for that and fell for him. I was happy for once. I had a man that said he loved me and would be there for us, both emotionally and financially.

One night mid [REDACTED] (1) 2001 Ed came over, we played connect 4, I cooked and drank wine. Ed got very physical - head kisses with us both. later he asked me if I felt better and he told me he had put something in my wine. ~~I felt better~~ I don't remember how I felt to be honest but vaguely remember moving into the bedroom

I remember a camera - Ed had always brought a video camera with him and had previously filmed [REDACTED] riding [REDACTED] bike and at the beach and as I did not have a camera I wanted these.

This evening is honestly the only one of its type I recall. I remember kissing, fingers fondling but there was not any intercourse that night that I recall. It was lovingly orchestrated by Ed. He over and over told me this was right and the right thing to do. I remember weaning a pareau wrap and wanting to make him happy.

The rest is a blur - I let him [REDACTED] [REDACTED] I let him do things that I knew were wrong, always just flying by, drinking more wine and putting it out of my mind. He brought me more money - we took a trip to Rhode Island for one night sometime late 2001.

Ed lead me down a fantasy path and it all seemed OK - he made me believe it was and took away doubts with presents and telling me it was normal.

Ed liked porn - I dislike porn - he always wanted to watch it and that became a sore point.

AB for the movies - I remember him filming and such but I never recall actually seeing them - I must have but he would always tell me that I can't see them because [REDACTED] erased them the next day. I did ask once or twice and he always

told me they were erased.

I thought that Ed was the answer to my single life. In mid 2001 (or about) I learned he was still married. That was the final straw for me. I was never fully comfortable with the relationship and what was viewed as a 'normal' thing with [REDACTED]. I came to realize that all these evenings I drank wine to get through and that this was just horribly wrong. [REDACTED] and I talked and [REDACTED] did not care one way or the other as long as I was happy and [REDACTED] thought Ed made me happy. I felt and told [REDACTED] that he disgusted me and that [REDACTED] would never see him again. We agreed, [REDACTED] and I that that was the case and to that I think the last time [REDACTED] saw him was sometime at a Taek function in 2004. When I told Ed that this was over - it ended abruptly. He got very upset and mad at me and harassed me via email and phone which I ignored and just blew off. Every so often Ed would bring this up over the past years and I would ignore it. Ed stopped for years telling he that it was my loss and he found someone else to 'play' with. I became active in church, active in my [REDACTED] education and buried all this in my mind. IT IS awful and a very embarrassing, wrong time in my life but I thought it was right at the time - at least Ed convinced me it was. Just

remembered, he brought [REDACTED] lingerie from Italy. Beautiful le Perla expensive thing and they were made for children in children's sizes. Told me we would move to Italy or to Tahiti. I lived on Bora Bora for a while and he always said that in all other parts of the world this was normal. I just never saw it before. I believed him.

I have written this statement of 5 pages to the best of my knowledge and belief that this statement is true. I have initialed each page of this statement and there are 5 pages.
